### California Version

**From:** Scripps Research Institute  
**Subject:** A win-win for you and research  
**Header:** What are your reasons for giving?

Dear [Name],

People make planned gifts to The Scripps Research Institute (TSRI) for many different reasons. For Steve Rosenberg, it was a way to honor his wife, Toni, who passed away from pain medicine complications in 2009. Steve left a bequest in his will to support the research of TSRI professor Ben Cravatt who is developing natural pain medications that avoid the dangerous side effects of most commercial opioid drugs.

[With a little bit of planning, you too can make a meaningful gift that helps advance medical research.](#)

From naming TSRI in your will to putting your retirement plan into action, you'll benefit—*and so will science.*

Talk to your financial advisor and use our planning tool to figure out what kind of gift is right for you—whether it provides an immediate tax credit or leaves a lasting legacy. [Get started now.](#)

Get Started Now

And the best part is, once you decide on a gift, it's out of sight and out of mind. [So make a planned gift today.](#)

The sooner you begin, the sooner you'll see benefits for your family and the research you support.

Thank you,  
Geoff Graham  
Director, Planned Giving and Estates

## Florida Version

**From:** Scripps Research Institute  
**Subject:** A win-win for you and research  
**Header:** What are your reasons for giving?

Dear [Name],

People make planned gifts to The Scripps Research Institute (TSRI) for many different reasons.

For Dr. Bill Roush, it's because he has a personal connection to the research. As a Professor of Chemistry at Scripps Florida, he knows it's home to the best science but lacks the large endowments of other institutes—so he and his wife, Rosalie, decided to write TSRI into their will.

[With a little bit of planning, you too can make a meaningful gift that helps advance medical research.](#)

From naming TSRI in your will to putting your retirement plan into action, you'll benefit—and so will science.

**Talk to your financial advisor and use our planning tool to figure out what kind of gift is right for you—whether it provides an immediate tax credit or leaves a lasting legacy. [Get started now.](#)**
